Cooldown function

Wi-Fi: Powered by Tuya: Smart air conditioning, remotely controlled with Wi-Fi via Tuya App.

Remote control: This unit can be operated with an easy to handle remote control.

Fan speed setting: Select the fan speed: low, medium or high. The display will show the chosen speed.

Cooldown effect: The unit removes humidity by condensation. The condensate cools the condenser and is removed by the hot air discharge. This will increase the energy efficiency, the so called "cool down" effect.
