TENSION DU RESSORT

Si votre moustiquaire s'enroule brutalement ou ne s'enroule pas complètement, vérifier la tension du ressort.

- 1 - Enlever le ruban adhésif «IMPORTANT».
- 2 - Enlever l'embout et le ressort de quelques centimètres et le laisser se détendre lentement (attention à la tension).
- 3 - Enrouler complètement la toile sur son axe et tourner le ressort dans le sens de la flèche.

Nombre de tours selon le modèle :

Moustiquaire enroulable baie vitrée : 18 tours à la main

- 4 - Emboîter l'embout avec le ressort et remettre l'autocollant.
- 5 - Tester la tension du ressort
