

## MONTAGE AMORTISSEUR

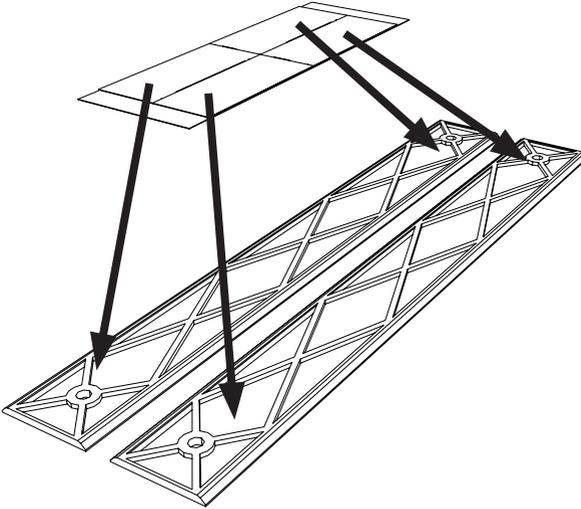

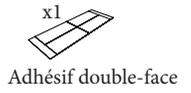

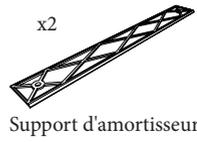

### Quincaillerie dans le sachet

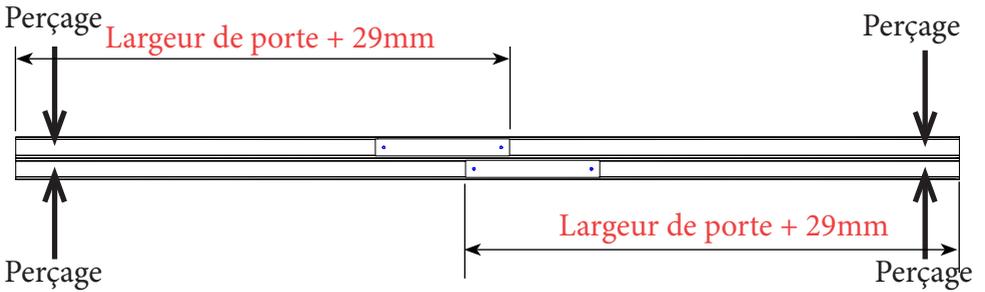

### Outils nécessaires au montage

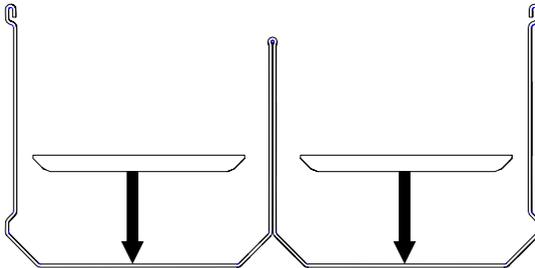

1

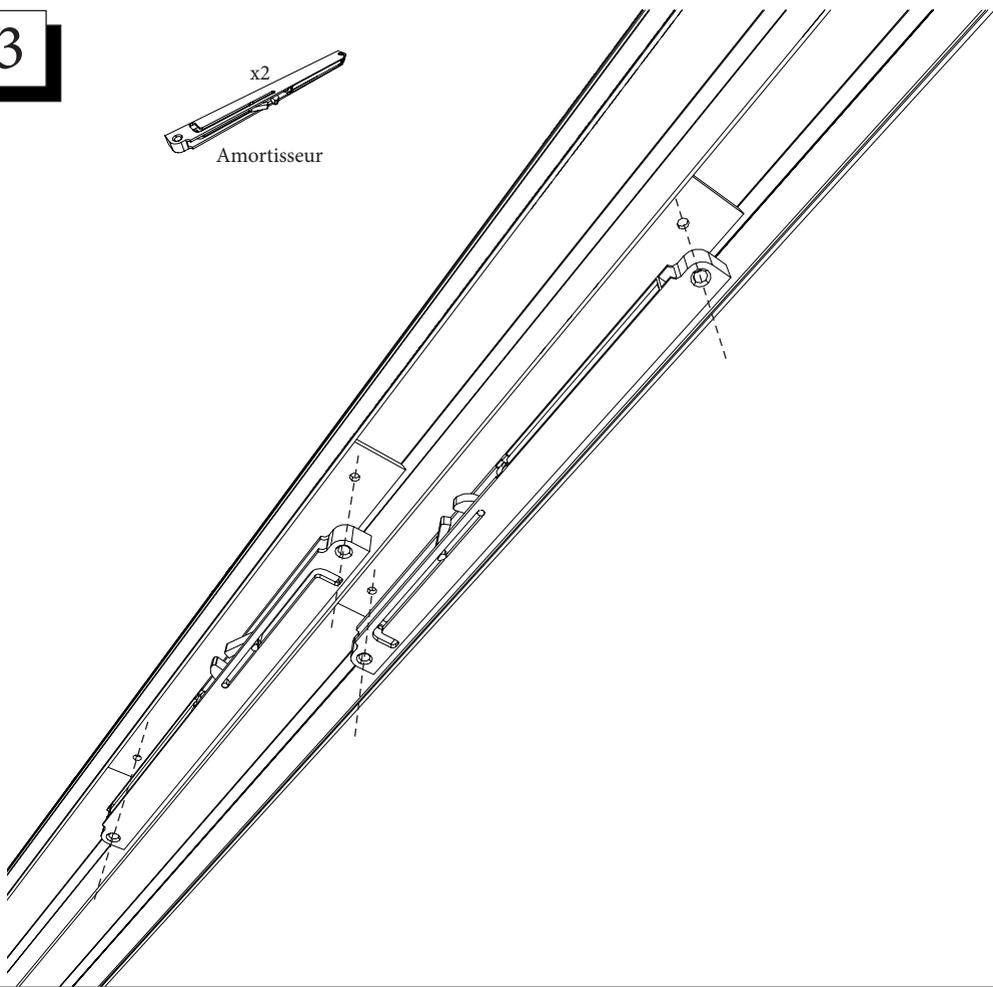

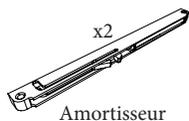

2

Percez et traversez le rail haut et les supports d'amortisseurs à l'aide d'une mèche de diamètre 5.

3

- Percez pour pouvoir insérer des chevilles appropriées à la nature de votre plafond.
- Posez le rail haut en utilisant les vis appropriées.
- Fixez les amortisseurs. (vis non fournies)
