RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

CAUTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

ATTENTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

ATTENTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

ATTENTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

ATTENTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

ATTENTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

ATTENTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

PERFORMANCE: The device is designed to detect motion within a range of 100m.

CAUTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

WARNING:

- Keep minimum distance 10cm.
- The wireless signal should not be blocked by opening the ventilation openings with the fingers, such as the receivers, telephones, curtains, etc.
- No other sources, such as light sources, should be placed on the apparatus.

PERFORMANCE: The device is designed to detect motion within a range of 100m.

CAUTION: Do not touch the device for 10 seconds after the battery is removed.

RECOMMENDATIONS:

- Remove the battery from the device.
- Do not touch the device for 10 seconds after the battery is removed.
- Do not touch the device for 10 seconds after the battery is removed.

WARNING:

- Keep minimum distance 10cm.
- The wireless signal should not be blocked by opening the ventilation openings with the fingers, such as the receivers, telephones, curtains, etc.
